

CARLOS AGUILAR

MULTIDISCIPLINARY DESIGNER & CREATIVE TECHNOLOGIST

Healthcare • Retail • Fashion • Education

Experience designing for Cigna, Evernorth, Victoria's Secret, Walmart, Lane Bryant, and more.

ABOUT ME

A creative and curious **multidisciplinary designer** with over **17 years of experience** in graphic design, branding, and digital experiences. Passionate about art, technology, and continuous learning, I've expanded my skill set beyond visual design to include front-end development, **AI-powered workflows**, API integrations, version control, and automation. I've independently designed, developed, and deployed a fully responsive portfolio website with a backend that collects user inquiries via email.

My expertise spans branding, logo design, web design, photo retouching, layout and presentation design, while also bringing fluency in **modern development tools**, **Git-based workflows**, and AI-assisted creative processes.

I combine **design precision with technical problem-solving** to deliver thoughtful, scalable creative solutions. My work has supported **global clients across healthcare, retail, fashion, and education**, and I'm passionate about building experiences that bridge creativity with emerging technology.
