

Strategic Redesign Proposal

Clover & Thread | April 15, 2025

Overview

This proposal outlines a comprehensive, data-driven redesign strategy for Clover & Thread's e-commerce platform. The goal: enhance user experience, align with brand evolution, and increase conversion rates across all devices. Designed for seamless collaboration between design and development teams, this strategy is structured into four actionable phases.

Project Goals

1. Modernize Visual Design

- 2. Align with updated brand identity: minimal, earthy, clean.

3. Improve UX & UI

Simplify navigation, enhance mobile usability, and reduce friction.

4. Boost Product Discovery

Implement smart filtering, search enhancements, and category clarity.

5. Streamline Checkout

Reduce cart abandonment and instill trust.

6. Communicate Brand Values

Emphasize sustainable practices and ethical sourcing.

7. Raise Conversion Rates

Increase to 4%+ sitewide across devices.

Analytics Summary

Metric	Current	Implication
Bounce Rate	63%	Poor engagement, weak first impressions
Avg. Session Duration	1m 12s	Users not finding what they need
Mobile Traffic	72%	Mobile-first redesign imperative
Cart Abandonment	81%	Checkout process is broken or unclear
Conversion Rate	1.3%	Strong opportunity for growth
Top Exit Pages	Product Detail, Checkout	Need UX overhaul
SEO Issues	Slow load, unoptimized mobile	Hurting visibility

Phase 1: Brand & Design Foundation (4 Weeks)

Objective: Establish a solid, on-brand visual direction and tone.

Team: Brand Strategist, Designer, UX/UI Lead

Tasks:

- Brand Workshop to solidify positioning
- Creation of Stakeholder Personas
- Brand Definition Document (voice, tone, audience)
- Visual Identity: Logo, Color Palette, Typography, Imagery
- Moodboard aligned to Clean, Bold, Youthful direction

Deliverables:

- Brand Definition Document
- Visual Style Guide
- Moodboard

Success Metrics:

- Stakeholder Approval
- Clear alignment of visual and verbal identity

Phase 2: UX/UI & Front-End Design (8 Weeks)

Objective: Redesign for seamless, delightful user experiences, especially on mobile.

Team: UX Researcher, UX/UI Designer, Front-End Devs

Tasks:

- User Research: Surveys & interviews
- Customer Personas & Journey Maps
- Competitive Audit & UI Benchmarking
- Information Architecture Redesign
- Wireframes (low + high fidelity)
- Mobile-first Responsive Layouts
- Interactive Prototypes
- Usability Testing

Deliverables:

- UX Report
- Wireframes (All Key Pages)
- Interactive Prototype

Success Metrics:

- Improved Usability Scores
- Validated User Flows via Testing

Phase 3: Development & E-commerce Engine (6 Weeks)

Objective: Launch a performant, conversion-optimized platform. **Team:** Full-Stack Devs, QA Engineer

Tasks:

- Build Responsive Site (React or HTML/CSS/JS)
- Checkout Flow Optimization
 - Guest checkout
 - Simplified forms
 - Trust-building elements
- Cart Enhancements: Upsells, persistent cart
- E-commerce Stack Integration (Shopify + CMS)
- Order & Inventory Management

Deliverables:

- Fully Functional E-commerce Site
- Tech Stack & Admin Handoff Docs

Success Metrics:

- Conversion Rate >4%
- Cart Abandonment <40%
- Mobile Load Speed <3s

Phase 4: Launch & Optimization (*Ongoing*)

Objective: Ensure long-term performance and iteration post-launch. **Team:** Project Manager, Marketing, Analytics Lead

Tasks:

- Pre-launch QA across devices
- SEO Improvements
- Heatmaps & Analytics Dashboards (GA4, Hotjar)
- A/B Testing of CTAs, Product Pages
- Customer Feedback Loop

Deliverables:

- Live Website
- Post-launch Performance Report (monthly)

Success Metrics:

- Bounce Rate <45%
- Avg. Session Duration >2m
- Positive Customer Feedback

Visual Appendices

Appendix A: Moodboard – Earth tones, neutral imagery, clean lines

Appendix B: Wireframes – Mobile-first layouts, smart filters, clean PDP

Appendix C: Prototype Screens – Homepage, Cart, Checkout, Product Grid

Appendix D: Brand Voice Guide – Energetic, Trendy, Trustworthy

Optional Add-ons

- **Email Template Design** (for cart recovery + newsletters)
- **Content Strategy & SEO Writing**
- **Performance Retainer (3 Months Post-Launch)**

Timeline Snapshot

Phase	Duration
Phase 1: Brand	4 Weeks
Phase 2: UX/UI	8 Weeks
Phase 3: Dev	6 Weeks
Buffer / Testing	2 Weeks
Total	~20 Weeks

Thank You

We look forward to helping Clover & Thread grow into its next evolution with a modern, meaningful, and high-performing e-commerce experience.
